

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

ADDRESS TO THE JANUARY EDITION, 1850.

It is now more than ten years since the **NEW NAVY LIST** was published by the late Commander, **CHARLES HAULTAIN, K.H.**, and its success, up to the present time, has amply justified the project of that gallant and lamented officer. The publication, in its altered form, having now entered upon its fourth year, it is due to the profession amongst which its support was looked for, to add, that the success has in no degree diminished. While admitting the above fact, therefore, the Editor and Publishers deem it right to return their thanks for the patronage so freely bestowed; and to express a hope that the improvements introduced into each succeeding number will continue to earn for it the support of those to whose interests the work is so peculiarly addressed.

The grand object sought to be achieved by the **NEW NAVY LIST** is the keeping before the world, in a condensed but intelligible shape, the more important points of service performed by each Officer, whatever may be his rank. It must be taken for granted that common routine services have fallen more or less to the lot of all; but to enter into their detail would be to defeat that part of the plan of the work which embraces condensation. It is not contemplated by the exclusion of such services to underrate them, but when it is considered that already nearly one-third of each book is occupied by notices of war or scientific performances, it will be obvious that more space could not be accorded without rendering it so bulky and expensive, as to defeat the proposed and more desirable end of extensive circulation.

It is no longer a doubtful point that the **NEW NAVY LIST** is considered an important vehicle for the services of Officers; but although every facility and encouragement has been held out for Officers to communicate their peculiar claims upon this score, there are many who have not availed themselves of the opportunities afforded. It is therefore again suggested to those who have not taken this step, that such communications are at all times acceptable and available if sent to the Editor, or Publishers, on, or before, the 20th June, and 20th December in each year.

ADDRESS TO THE EDITION,

Published in February, 1846.

THE importance of the NEW NAVY LIST and GENERAL RECORD OF SERVICES to all Officers of the Royal Navy and Royal Marines, has been seriously considered by the Proprietors and Editor of the present Number. In completing, at a great sacrifice of capital and labour, the extensive alterations, which will be observable at a glance, due regard has been paid to the relative services of all Officers, and the whole arrangement so changed, that its superiority in point of information will, it is hoped, render the NEW NAVY LIST a book of general circulation and reference.

Nothing can be further from the wish of the Proprietors than to detract from the merits of the late gallant Compiler, Commander HAULTAIN, whose labours and sacrifices were but ill compensated by the sale of the work ; but, in admitting deficiencies, of which a remedy has been aimed at, they must be in a great measure laid to the charge of the want of business resources with which he had to contend. In this respect there will now be nothing wanting ; and it is the full intention of the Proprietors to render the NEW NAVY LIST in every way worthy the full confidence and patronage of the Navy and Country at large.

The changes which have at present been effected may be here alluded to. The Services of all Officers have been separated from the mass, and brought to follow the Seniority Lists of the respective ranks as closely as possible. The object of this has been to facilitate references. The Services have been thoroughly revised and reprinted in double columns, and all expletive terms of commendation or otherwise struck out. Thus an Officer will no longer have to read the services of a brother Officer recounted in a more laboured strain than his own, which intrinsically, perhaps, were of greater merit than those so described. The propriety of this will, it is hoped, meet with general concurrence, and by thus removing superfluous type, an extended record of actual service is rendered easy. In a word, it is the wish to condense as much real service as possible into a small and intelligible compass, without giving undue consequence to any.

The NEW NAVY LIST will also, for the future, give by far the most complete record of the Services of that distinguished corps, the Royal Marines, in a condensed form, to be found in any publication. This new feature will, it is hoped, have the effect of making it a work essential and acceptable to all in any way connected with the Navy.

The List of the Navy has also undergone a thorough revision. Beneath the name of each Ship on the Effective List will be found the place and date of launching, the tonnage, and name of constructor or constructors—information not to be found in a complete shape in any other publication extant. The unserviceable and harbour service Ships have been removed to a separate list.

The exclusion of the “date of passing” column, heretofore given in the Seniority Lists of Captains, Commanders, and Lieutenants, demands some explanation. The extremely partial, and occasionally

inaccurate, way in which the information was given, rendered it particularly objectionable; and the evident disinclination on the part of Officers of long standing generally to communicate the information, added to the impracticability of procuring it from an official source, decided the point of removing the column entirely. If, however, at any future period, the dates of passing can be given in every case, it will be more valuable and far less invidious than it was previously.

But the most important new feature is that of the General Alphabetical Index of all Officers in the Royal Navy and Royal Marines, which has been compiled with great labour, and upon the accuracy of which the character of the work may be safely staked.

The Honorary Marks before the names of titled Officers will soon become familiar to the eye, and it is presumed they will be preferred to the letters heretofore used.

The Initial Letters at present refer only to the services of Officers in Lord Howe's great battle of the 1st June, 1794; Sir John Jervis's victory off Cape St. Vincent, 14th February, 1797; Admiral Duncan's defeat of the Dutch fleet off Camperdown, 11th Oct., 1797; Nelson's achievements at the Nile, 1st Aug., 1798; at Copenhagen, 2nd April, 1801; and at Trafalgar, 21st Oct., 1805; together with the expedition to Egypt, 1801; Sir Richard Strachan's action off Ferrol, 4th Nov., 1805; and the defeat of the French squadron off St. Domingo by Admiral Sir John Duckworth, 6th February, 1806. By this selection it is not meant to cast other services into the shade, and it will be a subject for consideration what other triumphs of the British Navy shall be equally distinguished. Those selected will, without doubt, ever rank foremost in the pages of Naval History; and as the Captains who participated in all (except that of Copenhagen) were honoured with gold medals, there was good reason for commencing with those brilliant victories. The Battle off Lissa; bombardment of Algiers; destruction of the Turkish fleet at Navarin; and the overthrow of St. Jean D'Acre, were each and all alike honourable to British prowess, and will also come under consideration for distinction.

Although thus much has been done, attempts at further improvement will not be wanting, and it will afford pleasure to the Proprietors and Editor to receive corrections or available additions to the services as they are now given. In particular, those services of a scientific character are here alluded to, which Officers are requested to furnish in order to render this peculiar province more complete.

It will, however, be obvious that the great expenses connected with the publication of a work like the *NEW NAVY LIST* cannot be persevered in without an increase to the number of Subscribers; and those whose wish it is to maintain a work of such value to all who have claims which require to be kept before those in authority, will, it is hoped, use their best endeavours to increase the sale. They will thereby also enable the Proprietors to publish the work at the lowest price which will afford a due return for the capital embarked, and the vigilance and labour which must be incessantly employed in the collection of new materials, and the preservation of accuracy.

PLAN OF RETIREMENT FOR CAPTAINS, AUGUST 31, 1846.

1st. The rank of retired Rear-Admiral to be given, by seniority, to such applicants from the 14s. 6d. half-pay list, as may be willing to accept it, with the pay of £1 5s. per day, and the corresponding pension to their widows, under the usual restrictions.

2d. An addition of 7s. 6d. per day to be given to applicants, by seniority, from the 12s. 6d. and 10s. 6d. half-pay lists, being captains of not less than 20 years standing, and 55 years of age. Officers from both lists to be permitted to assume the title of Retired Rear-Admiral at the period when they would have obtained the Flag by seniority, had they remained upon the active list. Their widows to be entitled to a pension of £110 per year; and to the pension of Rear-Admiral's widow, when the rank of Retired Rear-Admiral has been attained.

3d. The vacancies upon the £1 list to be filled up, in turn of seniority, by officers now accepting the 18s. per day; but no new admissions to the £1 5s. list to be made until it is reduced below the number of 25, which it is not to exceed afterwards. The permanent retired list to be reduced to 100, by making one appointment for every two vacancies, the first 25 officers upon the list receiving £1 5s. per day, and the remaining 75 £1 per day, with

the right of assuming the rank of Retired Rear-Admiral, when entitled to it by seniority.

4th. The active list of Captains not permanently to exceed 500. A proportionate reduction to be made in the 14s. 6d. and 12s. 6d. half-pay lists; the first to consist of 70 Captains, and the latter of 100.

5th. Good service pensions to be retained by Captains, until they reach the rank of Rear-Admiral, or Retired Rear-Admiral.

6th. The promotions from the Captains' list to the Admirals' list in future to be continuous, reserving always the undoubted right of the Crown to select officers for promotion in the higher as well as the lower ranks, whenever the public interest requires such an exercise of the prerogative.

7th. The Admirals' list not permanently to exceed 150 in number, and to be thus distributed:—

30 Admirals, or 10 of each squadron;

45 Vice-Admirals, or 15 of each squadron;

And 75 Rear-Admirals, or 25 of each squadron.

8th. This plan to come into operation on the 1st of October of the present year, and all letters relating to it to be treated as strictly confidential.

By command of their Lordships,

H. G. WARD.

MASTERS.

To qualify an Officer to receive a Commission as Master, he must have been at Sea at least seven years, two of which in Her Majesty's Navy, in the quality of Acting Master or Second Master; or, having served seven years at Sea, shall have actually been one year or more Chief Mate, and two years Master, or two years Chief Mate, and one year Master of a Merchant Vessel. He shall produce Certificates of diligence, sobriety, and good conduct from his Captains, also from the Owners, for the time he served as Master, and from the Owners and Master for the time he served as Mate; and shall pass such Examination as the Admiralty may from time to time direct; but no Candidate shall be examined before he shall have attained the age of twenty-one years, nor after the age of forty.

Time served as Master, shall, in future, be considered as time served as Lieutenant, to qualify an Officer to receive a Commission as Commander, under Her Majesty's Regulations, Art. 2, Sec. 4, Chap. 3, in the event of any particularly

distinguished conduct which in the opinion of the Lords Commissioners of the Admiralty it may be proper to reward by such advancement.

Such Masters as shall not have served afloat as Masters in the Royal Navy six complete years, and are not already in the receipt of higher half pay, shall not be entitled to any increase of pay beyond Five shillings a day, except in cases where it shall appear to the Lords Commissioners of the Admiralty, that inability to serve the prescribed term of six years shall have been caused by wounds or ill health, arising from the service.

A Master's Assistant (when such rating shall be allowed by the Admiralty) previously to receiving an appointment as such to any of Her Majesty's ships, will be required to have a thorough knowledge of Practical Observations of the Sun, Moon, and Stars, for ascertaining the Latitude; to work double Altitudes; the Longitude by Chronometer; and to keep a Ship's reckoning by the common Rules, usually denominated a day's work.

EXAMINATION OF MASTERS.

ADMIRALTY, DECEMBER 17, 1849.

The Lords Commissioners of the Admiralty having had under their consideration the present Regulations for the examination of Masters and Second Masters of Her Majesty's Fleet, as defined by Art. 21, chap. 2, page 22, and Art. 25, chap. 2, page 25, of the printed instructions, have been pleased to direct that on and after the 1st of January next, the following Regulations shall be adopted, viz.:—

All Officers passing for the rank of Second Masters (or Officers from the Merchant Service who are candidates for the rank of Master, under the Queen's Regulations, Art. 6, chap. 3, page 24), shall be examined in seamanship, either at home or abroad, by one Captain or Commander, and three Masters; and after having received a certificate of having passed such examination, they shall undergo their examination in navigation, at the Royal Naval College (instead of the Trinity House), under the same Regulations, and at the same period as Midshipmen passing for Lieutenants; but the examination for pilotage is to be conducted at the Trinity House, under the rules and regulations at present in force, but subsequent to the above-mentioned examinations. Having completed the above examinations, they will be considered eligible for the rank of Master in the Royal Navy, provided they shall have served the time required by the Queen's Regulations.

The seniority of Second Masters (or of candidates for the rank of Masters) is in future to reckon from the date of their passing in seamanship for that rank, provided they shall subsequently pass in Navigation at the Royal Naval College on the first or second examination-day following, either of which days they are at liberty to select; or, in the event of an Officer having previously passed *abroad* in seamanship, he is at liberty, after his arrival in England, to select either the first or second examination-day at the Royal Naval College; or if belonging to a ship under orders to be paid off, on the

first or second examination-day after having been so paid off, when, if he shall succeed in passing, he will be allowed seniority from the date of his having passed abroad. But no Second Master (or candidate for the rank of Master) will be allowed such seniority who shall fail in passing the Royal Navy College at the first trial, or who shall not pass at the Trinity House within a month after his having passed in Navigation.

Officers appearing before the Trinity Board for the purpose of passing in pilotage, must be qualified to take charge as Pilot of any of Her Majesty's frigates for the coast and ports for which Masters have hitherto been examined; and when they shall have served three years, at least, in frigates or sloops, they may be further examined as to their qualifications to take charge of Line-of-battle ships; but in this examination it will be required that they pass for the largest description of first-rates. In the event of an Officer serving abroad as Acting Master of a Line-of-battle ship, the time so served may reckon as part of the *safesaid* three years.

The class of ship of which Officers are capable of taking charge as Pilots will be stated in the certificate granted to them by the Trinity House.

All Officers desirous of being examined in pilotage at Trinity House, either for the rank of Second Master, or as to their qualifications to serve as Masters of frigates, or of Line-of-battle ships, should present themselves at the Admiralty, bringing with them a certificate of their birth, and also their original certificates for the entire period they have been employed in Her Majesty's service, or in merchant ships, in each of which certificates the word *sobriety* must be included. Similar certificates must be produced by Officers presenting themselves to pass in navigation at the Royal Naval College.

By command of their Lordships,

J. PARKER.

SUPERANNUATED MASTER.

NAVAL INSTRUCTORS.

REGULATIONS ESTABLISHED BY ORDER IN COUNCIL. OF THE 22nd DEC. 1836,
10th AUGUST, 1840, AND 11th MARCH, 1842.

Naval Instructors and Schoolmasters are hereafter to be designated "Naval Instructors," and Chaplains on being appointed to act as Naval Instructors are to be designated "Chaplains and Naval Instructors."—No person will be considered eligible for an appointment as Naval Instructor who is under 20 years of age or more than 35.—Every Candidate will be required to produce a certificate of his age, and testimonials of good character; and both laymen and clergymen when appointed to act as Naval Instructors must pass an examination as to their qualifications to instruct the young Officers in the following branches:—1st. Common Arithmetic, including Vulgar and Decimal Fractions.—2nd. The first six, and the eleventh books of Euclid.—3rd. Algebra, progressing to the highest order of equations, and its application to the solution of Geometrical Problems.—4th. Plane and Spherical Trigonometry, theoretical and practical.—5th. Nautical Astronomy, particularly the principles on which the various rules for finding the latitude and longitude are founded.—6th. Mechanics.—7th. Hydrostatics.—8th. A competent knowledge of the Classics.

The final examination of Candidates for Naval Instructorships will comprise:—1st. The usual College passing examination in Navigation.—2nd. The application of the theory of Projectiles to Gunnery.—3rd. Observations with the Sextant, &c. The use of the Azimuth Compass and Chronometer, &c. Perfect proficiency will be expected in observing: 250 numbers will be required to pass a Candidate in the College paper, and 55 is to be the minimum number for observations.

Although the knowledge of French, as well as of other modern languages, and of the principles of drawing, is not considered as indispensable, it is very desirable that Naval Instructors should be able to give instruction in these branches of education; and preference will always be given to such as possess these attainments.

Naval Instructors will be allowed, in addition to their pay, £25 a-year to be charged on the ship's books against, and to be deducted from, the pay of every young gentleman receiving instruction.

Naval Instructors who shall retire from employment without the sanction of the Admiralty, or who shall refuse or avoid service, if found capable of serving, shall not be allowed to receive half pay; and will be removed from the list of Naval Instructors.

Chaplains acting as Naval Instructors will be allowed £25 a year to be deducted from the pay of every young gentleman instructed by them, in addition to their pay as Chaplains and to three-fourths of the amount of the Full Pay of Naval Instructors, according to the length of their service as such.

Naval Instructors are in all respects Ward Room Officers.

OFFICERS AUTHORISED TO WEAR FOREIGN ORDERS.

Rules relative to Foreign Orders from Foreign Sovereigns.

1st. No British Subject shall accept a Foreign Order, or wear its Insignia, without having previously obtained a Warrant under the Royal Sign Manual (directed to the Earl Marshal of England), granting them Her Majesty's permission to accept and wear the same.

2nd. To obtain such permission, the intention of the Foreign Sovereign to decorate a British subject with the Insignia of such Order is to be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the Queen's Minister abroad, or through the accredited Minister of the Foreign Sovereign resident at London. And if the application be in favour of a Naval Officer, the Principal Secretary of State for Foreign Affairs will communicate with the First Lord of the Admiralty to the same effect, previous to Her Majesty's pleasure being taken thereon.

3rd. When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken Her Majesty's pleasure, and obtained Her consent upon the occasion, he shall then signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that the usual Warrant may be prepared for the Royal Sign Manual, and such other steps be taken as may be necessary for carrying Her Majesty's pleasure into effect accordingly.

4th. When the Warrant is signed by the Queen, it shall be announced in the Gazette in the usual manner, and registered in Her Majesty's College of Arms.

5th. No subject of Her Majesty can be allowed to accept the Insignia of a Foreign Order from any Sovereign of a Foreign State, except they shall be so conferred in consequence of active and distinguished services before the enemy, either at sea or in the field, or unless he shall have been actually employed in the service of such Foreign Sovereign.

6th. Her Majesty's license and permission doth not authorise, and shall not be deemed or construed to authorise, the assumption of any style, appellation, rank, precedence, or privilege appertaining unto a Knight Bachelor of these Realms.

Her Majesty has been pleased further to direct,—

7th. That if the Service for which it is proposed to confer the Order has been performed during War, the Notification required by the 2nd Regulation must be made not later than two years after the exchange of the Ratifications of a Treaty of Peace.

If the Service has been performed in time of Peace, the Notification must be made within two years of the date of such Service.

8th. When a British Subject has received the Royal permission to accept a Foreign Order, he will at any future time be allowed to accept the Declaration of a higher Class of the same Order, to which he may have become eligible by increase of rank in the Foreign Service, or in the Service of his own country; or any other distinctive mark of honour strictly consequent upon the acceptance of the original Order, and common to every person upon whom such Order is conferred

ABERDEEN.

Foreign Office, August 22, 1843.

The Queen has made known her pleasure,—

9th. That the 8th Clause of the Regulations respecting Foreign Orders shall not be taken to apply to Decorations of the Guelphic Order which were bestowed on British Subjects by her predecessors, their Majesties King George IV., and King William IV., on whose heads the Crowns of Great Britain and Hanover were united.

Decorations so bestowed cannot properly be considered as rewards granted by a Foreign Sovereign for services rendered according to the purport of the 5th Clause of the Regulations. They must be rather considered as personal favours bestowed on British Subjects by British Sovereigns, and as having no reference to services rendered to the Foreign Crown of Hanover.

ABERDEEN.

NAVAL MEDALS.

Admiralty, 7th June, 1848.

The Lords Commissioners of the Admiralty having referred to a Committee of Flag Officers the consideration of the naval actions for which medals should be granted, in accordance with the spirit of the Queen's most gracious intentions, as signified in the *Gazette* of the 4th June, 1847; and Her Majesty having been pleased to approve of several of the suggestions submitted by the said Committee, the following notice is issued for the information and guidance of those who may have claims to this honourable distinction:—

1st. The rule, directed by Her Majesty to be observed in extending this mark of Her royal favour, is so comprehensive, as to bring within its scope all Officers, seamen, and marines (and soldiers who served as marines) who were present in any action which at the time received the special approbation of the Lords Commissioners of the Admiralty.

2nd. From the commencement of the war in 1793, it was the practice of the Board of Admiralty to notice battles of conspicuous merit by the promotion of the First Lieutenant of the ship or ships, or the promotion of the Commander, if the action was fought by a small vessel; and, conformably with this practice, it is Her Majesty's pleasure, that persons of every rank, who were present in such actions, during the wars commencing in 1793, and ending in 1815, and now living, shall receive a medal commemorative of their meritorious services; and they are required forthwith to state their claims for each action in which they may have been engaged, according to the form (A) hereunto annexed, and transmit the same to the Secretary of the Committee of Flag Officers, Admiralty, London.

3rd. Her Majesty has also been pleased to take into Her gracious consideration the many instances of gallantry displayed by Officers, seamen, and marines in boat actions during the same period, and to direct that such services, if distinguished by the promotion of the Officer conducting the enterprise, shall entitle those who were present, and now living, to a medal; provided the answers, to be given in the form (B), shall enable the Committee to ascertain that the claim is well founded. But the Officers, seamen, and marines of the ships, from which the boats were detached, are not to participate in a distinction which only properly belongs to those personally engaged.

4th. It is also ordered, that service in the frigates and smaller vessels, which were actually present in any of the great fleet actions mentioned in the *Gazette* of the 4th June, 1847, for which the Captains of the ships of the line received medals, shall entitle those now surviving of the crews of such vessels to a medal.

And all surviving Officers, seamen, and marines, belonging to ships actually co-operating and present during the siege and capture of Martinique in 1809, Guadaloupe in 1810, Java in 1811, St. Sebastian in 1813, for which the Army had medals, will be entitled to a similar distinction, if their return, according to form (A), shall enable the Committee to trace the presence and co-operation of the ships to which the applicants belonged.

And 5th. Her Majesty, having taken into Her most gracious consideration the circumstance that medals have been granted by Her Majesty for services rendered by the Navy, not only in the wars commencing in 1793, and ending in 1815, but also for services rendered in the late war in China, whilst the intermediate general actions, viz.:

The attack upon Algiers in 1816,

The battle of Navarino in 1827, and

The operations on the coast of Syria in 1840, are unmarked by any such distinction, has been pleased to direct, that the surviving Officers, seamen, and marines, engaged in those actions, shall also receive a similar mark of their Sovereign's gracious recollection of their services, and of Her desire to record the same; and all such Officers, seamen, and marines are, therefore, hereby called upon to transmit their claims to such distinction according to the annexed form (A), and addressed to the Secretary of the Committee of Flag Officers, Admiralty, London.

The following Flag Officers have been directed to re-assemble, as a Committee for the investigation and adjudication of all claims sent in according to the printed forms, viz. :—

Admiral Sir T. Byam Martin, G.C.B.

Admiral Sir W. Hall Gage, G.C.H.

Admiral the Hon. Sir Thos. Bladen Capel, K.C.B.

Rear-Admiral Sir James A. Gordon, K.C.B.

By command of the Lords Commissioners
of the Admiralty,

H. G. WARD.

ROYAL NAVAL COLLEGE.

SCIENTIFIC EDUCATION OF OFFICERS.

Admiralty, 20th December, 1838.

Her Majesty having been graciously pleased to sanction, by Order in Council of July 8th, 1838, the establishment of further means of scientific education for a certain number of Officers of Her Majesty's Naval Service, under such regulations as the Lords Commissioners of the Admiralty may frame from time to time.

Their Lordships have directed that for this object—Thirty additional Mates, who have passed both the Examination in Seamanship and in Navigation, shall be borne on the books of the *Excellent*.

They will receive Sea-pay, and be in all respects under Naval discipline; but they will receive the usual allowance instead of being victualled, and be lodged in the Royal Naval College. Any further expense will be defrayed by themselves.

They will be selected from such as have passed the Ordinary Examination on board the *Excellent*, and a preference will be given to those who shall have passed the best Examination.

They will receive Instruction at the Royal Naval College for the space of one year, and then be discharged.

An Examination will take place at the end of every six months.

The Mate who passes the best Examination, provided he produces satisfactory Certificates of character and professional ability from the Captains with whom he has served, and during the period of his Instruction, will receive a Lieutenant's Commission; provided always he attains a certain fixed degree of proficiency.

A limited number (Ten) of Commissioned Officers of any rank may avail themselves of the instruction thus afforded, for the space of one year. No expense will be incurred on their account; and they will be expected to pass the ordinary examination of the *Excellent* before they are admitted to the instruction at the Royal Naval College.

By Command of their Lordships, C. Wood.

EXAMINATION OF OFFICERS ON SUBJECTS CONNECTED WITH THE STEAM ENGINE.

Admiralty, 8th of December, 1849.

My Lords Commissioners of the Admiralty having had under their consideration the examination required of Officers, on subjects connected with the Steam Engine, with a view to ascertain their competency to be registered as "Steam Officers," are pleased to order that no Officer shall, henceforward, be so registered, until he has passed an examination at the Royal Naval College at Portsmouth, on the subjects herein detailed; and any Officer, whether he has acquired his knowledge in one of Her Majesty's Dockyards, or at the factories of private individuals, or has studied at the Royal Naval College, or not, is at liberty to present himself for examination, on the days fixed for the purpose, on giving timely notice to the Captain Superintendent of the College of his intention so to present himself.

The Examinations are to take place once in every three months, at the time fixed for the present Quarterly Examinations; and they will be conducted by the Professor of the College, in the presence of the Admiral Superintendent of the Dockyard and the Captain Superintendent of the College.

The subjects on which the Officers will be examined are to be, until further notice, as follows, viz. :—

1. The Elements of Geometry, Mechanics, and Dynamics.

2. Laws of Heat.

3. The application of these branches of science to the steam engine.

4. The name, and use of every part of the engines, boilers, &c.

5. Construction and principle of the engines and boilers; expansion of steam, economy of fuel, resulting from the application of the principle, and, under certain circumstances, from the employment of reduced power.

6. The nature, application, and uses of the indicator.

The Chief Engineer of the Dockyard is to furnish the Professor with questions, relating to the heads Nos. 4, 5 and 6—marked with the number which should be given for each question if answered fully and correctly; and he is to examine the written answers, and mark upon each of them the number which should, in his opinion, be given by the Professor.

The Professor is to prepare questions under the first three heads, and in like manner assign to each question the number which should be given to it, if answered fully and correctly.

The whole of these questions are to be printed, and placed in the hands of each Officer, on the day of examination.

An abstract is ultimately to be made by the Professor of the result of the examinations, shewing in one column the greatest number which could be gained under each head of the examination - and in another column the aggregate of the number under the separate heads awarded to each Officer; and this abstract is to be transmitted to the Secretary of the Admiralty, with a copy of the printed questions, for their Lordships' information.

By Command of their Lordships, JOHN PARKER.

HER MAJESTY'S ORDER IN COUNCIL, DATED JULY 30, 1849, FOR THE DISTRIBUTION OF PRIZE MONEY.

(To take effect on and after January 1st, 1850.)

To flag officer or officers one sixteenth part of the whole net proceeds arising from prizes captured from the enemy, and from all other captures, seizures, &c., as aforesaid, made by any of the ships or vessels under his or their command, and of the rewards conferred for the same. When there is but one flag officer, he shall have the entire one sixteenth; when two flag officers shall be sharing together, the chief shall have two thirds, and the other flag officer the remaining one third of the one sixteenth part; and when there shall be more than two flag officers, the chief shall receive one half of the said one sixteenth, and the remaining half shall be equally divided among the junior flag officers. Commodores of the first class and captains of the fleet to share as flag officers.

Provided always, That no flag officer, unless actually on board any of Our ships or vessels of war, and at the actual taking, sinking, burning, or otherwise destroying any ship or ships of war or privateers belonging to the enemy, shall share in the distribution of any head money or bounty money granted as a reward for the taking, sinking, burning, or otherwise destroying any such ship or vessel of the enemy.

And no flag officer, unless actually present at the capture or destruction of any pirate ship, vessel, or boat, shall be entitled to share in any distribution of the proceeds or bounty in respect of the crews of such piratical vessels.

And no flag officer shall share in any remuneration or reward conferred or awarded to any of Our ships or vessels as salvage, unless he shall have been actually on board the ship or vessel to which the award shall be made, or have personally aided and assisted in the transaction at the time the service was rendered.

No flag officer commanding in any port in the United Kingdom shall share in the proceeds of any prizes captured from the enemy, nor in other captures, seizures, rewards, or any distributive proceeds as aforesaid, made by any ships or vessels which shall sail from or leave such port by order of the Lord High Admiral, or of Our Commissioners for executing the Office of Lord High Admiral.

When ships or vessels under the command of several flag officers belonging to separate stations shall be joint captors, &c., each flag officer shall receive a proportion of the one sixteenth, according to the number of officers and men present under the command of each such flag officer; and when ships or vessels under orders from the Lord High Admiral, or from Our Commissioners for executing the office of Lord High Admiral, are joint captors, &c., with other ships or vessels under a flag or flags, the like regulation as to the apportionment of the flag share to the flag officer or officers is to be observed.

And with reference to these regulations it is to be noted, that a captain, commander, or other commanding officer of a ship or vessel shall be deemed

to be under the command of a flag when he shall actually have received some order from, or be acting in the execution of some order issued by a flag officer, whether he be or be not within the limits of the station of such flag officer; and in the event of his being directed to join a flag officer on any station, he shall be deemed to be under the command of such flag officer from the time when he arrives within the limits of the station, which circumstance is always to be carefully noted in the log book; and it shall be considered that he continues under the flag officer of such station until he shall have received some order directly from, or be acting in the execution of, some order issued by some other flag officer, duly authorized, or by the Lord High Admiral, or Our Commissioners for executing the office of Lord High Admiral.

The captain, commander, lieutenant commanding, or master commanding, or any other officer commanding any ship, sloop, or vessel of war, singly making a capture or seizure, or otherwise entitled to the distributive benefit arising from any proceeds, reward, grant, bounty, salvage, or award as aforesaid, that is to say, the officer actually in command at the time, shall have one eighth of the remainder, or if there is no flag, one eighth of the entire net proceeds; and if more than one commanding officer of the same rank of command shall be entitled to share as joint captors, &c., the one eighth shall be equally divided between them; but when captains, commanders, lieutenants commanding, and masters commanding, respectively, Our ships, sloops, and vessels of war shall share together, in whatever variety of combination, the one eighth shall be so divided into parts for a graduated apportionment as to provide for each captain receiving six parts, each commander of a sloop three parts, and each lieutenant commanding or master commanding a vessel of war two parts, which We hereby direct shall be the proportion in which they shall respectively share; commodores of the second class, and field officers of marines or of land forces serving as marines, doing duty as field officers, above the rank of major, to share as captains; and field officers of marines or of land forces serving as marines, and doing duty in the rank of major, to share as commanders of sloops.

ADDRESS.

IT is now more than ten years since the NEW NAVY LIST was published by the late Commander, CHARLES HAULTAIN, K.H., and its success, up to the present time, has amply justified the project of that gallant and lamented officer. The publication, in its altered form, having now entered upon its fourth year, it is due to the profession amongst which its support was looked for, to add, that the success has in no degree diminished. While admitting the above fact, therefore, the Editor and Publishers deem it right to return their thanks for the patronage so freely bestowed ; and to express a hope that the improvements introduced into each succeeding number will continue to earn for it the support of those to whose interests the work is so peculiarly addressed.

The grand object sought to be achieved by the NEW NAVY LIST is the keeping before the world, in a condensed but intelligible shape, the more important points of service performed by each Officer, whatever may be his rank. It must be taken for granted that common routine services have fallen more or less to the lot of all ; but to enter into their detail would be to defeat that part of the plan of the work which embraces condensation. It is not contemplated by the exclusion of such services to underrate them, but when it is considered that already nearly one-third of each book is occupied by notices of war or scientific performances, it will be obvious that more space could not be accorded without rendering it so bulky and expensive, as to defeat the proposed and more desirable end of extensive circulation.

It is no longer a doubtful point that the NEW NAVY LIST is considered an important vehicle for the services of Officers ; but although every facility and encouragement has been held out for Officers to communicate their peculiar claims upon this score, there are many who have not availed themselves of the opportunities afforded. It is therefore again suggested to those who have not taken this step, that such communications are at all times acceptable and available if sent to the Editor, or Publishers, on, or before, the 20th June, and 20th December in each year.

ADDRESS TO THE EDITION,

Published in February, 1846.

THE importance of the NEW NAVY LIST and GENERAL RECORD OF SERVICES to all Officers of the Royal Navy and Royal Marines, has been seriously considered by the Proprietors and Editor of the present Number. In completing, at a great sacrifice of capital and labour, the extensive alterations, which will be observable at a glance, due regard has been paid to the relative services of all Officers, and the whole arrangement so changed, that its superiority in point of information will, it is hoped, render the NEW NAVY LIST a book of general circulation and reference.

Nothing can be further from the wish of the Proprietors than to detract from the merits of the late gallant Compiler, Commander HAULTAIN, whose labours and sacrifices were but ill compensated by the sale of the work ; but, in admitting deficiencies, of which a remedy has been aimed at, they must be in a great measure laid to the charge of the want of business resources with which he had to contend. In this respect there will now be nothing wanting ; and it is the full intention of the Proprietors to render the NEW NAVY LIST in every way worthy the full confidence and patronage of the Navy and Country at large.

The changes which have at present been effected may be here alluded to. The Services of all Officers have been separated from the mass, and brought to follow the Seniority Lists of the respective ranks as closely as possible. The object of this has been to facilitate references. The Services have been thoroughly revised and reprinted in double columns, and all expletive terms of commendation or otherwise struck out. Thus an Officer will no longer have to read the services of a brother Officer recounted in a more laboured strain than his own, which intrinsically, perhaps, were of greater merit than those so described. The propriety of this will, it is hoped, meet with general concurrence, and by thus removing superfluous type, an extended record of actual service is rendered easy. In a word, it is the wish to condense as much real service as possible into a small and intelligible compass, without giving undue consequence to any.

The NEW NAVY LIST will also, for the future, give by far the most complete record of the Services of that distinguished corps, the Royal Marines, in a condensed form, to be found in any publication. This new feature will, it is hoped, have the effect of making it a work essential and acceptable to all in any way connected with the Navy.

The List of the Navy has also undergone a thorough revision. Beneath the name of each Ship on the Effective List will be found the place and date of launching, the tonnage, and name of constructor or constructors—information not to be found in a complete shape in any other publication extant. The unserviceable and harbour service Ships have been removed to a separate list.

The exclusion of the “date of passing” column, heretofore given in the Seniority Lists of Captains, Commanders, and Lieutenants, demands some explanation. The extremely partial, and occasionally

inaccurate, way in which the information was given, rendered it particularly objectionable; and the evident disinclination on the part of Officers of long standing generally to communicate the information, added to the impracticability of procuring it from an official source, decided the point of removing the column entirely. If, however, at any future period, the dates of passing can be given in every case, it will be more valuable and far less invidious than it was previously.

But the most important new feature is that of the General Alphabetical Index of all Officers in the Royal Navy and Royal Marines, which has been compiled with great labour, and upon the accuracy of which the character of the work may be safely staked.

The Honorary Marks before the names of titled Officers will soon become familiar to the eye, and it is presumed they will be preferred to the letters heretofore used.

The Initial Letters at present refer only to the services of Officers in Lord Howe's great battle of the 1st June, 1794; Sir John Jervis's victory off Cape St. Vincent, 14th February, 1797; Admiral Duncan's defeat of the Dutch fleet off Camperdown, 11th Oct., 1797; Nelson's achievements at the Nile, 1st Aug., 1798; at Copenhagen, 2nd April, 1801; and at Trafalgar, 21st Oct., 1805; together with the expedition to Egypt, 1801; Sir Richard Strachan's action off Ferrol, 4th Nov., 1805; and the defeat of the French squadron off St. Domingo by Admiral Sir John Duckworth, 6th February, 1806. By this selection it is not meant to cast other services into the shade, and it will be a subject for consideration what other triumphs of the British Navy shall be equally distinguished. Those selected will, without doubt, ever rank foremost in the pages of Naval History; and as the Captains who participated in all (except that of Copenhagen) were honoured with gold medals, there was good reason for commencing with those brilliant victories. The Battle off Lissa; bombardment of Algiers; destruction of the Turkish fleet at Navarin; and the overthrow of St. Jean D'Acre, were each and all alike honourable to British prowess, and will also come under consideration for distinction.

Although thus much has been done, attempts at further improvement will not be wanting, and it will afford pleasure to the Proprietors and Editor to receive corrections or available additions to the services as they are now given. In particular, those services of a scientific character are here alluded to, which Officers are requested to furnish in order to render this peculiar province more complete.

It will, however, be obvious that the great expenses connected with the publication of a work like the *NEW NAVY LIST* cannot be persevered in without an increase to the number of Subscribers; and those whose wish it is to maintain a work of such value to all who have claims which require to be kept before those in authority, will, it is hoped, use their best endeavours to increase the sale. They will thereby also enable the Proprietors to publish the work at the lowest price which will afford a due return for the capital embarked, and the vigilance and labour which must be incessantly employed in the collection of new materials, and the preservation of accuracy.

PLAN OF RETIREMENT FOR CAPTAINS, AUGUST 31, 1846.

1st. The rank of retired Rear-Admiral to be given, by seniority, to such applicants from the 14s. 6d. half-pay list, as may be willing to accept it, with the pay of £1 5s. per day, and the corresponding pension to their widows, under the usual restrictions.

2d. An addition of 7s. 6d. per day to be given to applicants, by seniority, from the 12s. 6d. and 10s. 6d. half pay lists, being captains of not less than 20 years standing, and 55 years of age. Officers from both lists to be permitted to assume the title of Retired Rear-Admiral at the period when they would have obtained the Flag by seniority, had they remained upon the active list. Their widows to be entitled to a pension of £110 per year; and to the pension of Rear-Admiral's widow, when the rank of Retired Rear-Admiral has been attained.

3d. The vacancies upon the £1 list to be filled up, in turn of seniority, by officers now accepting the 18s. per day; but no new admissions to the £1 5s. list to be made until it is reduced below the number of 95, which it is not to exceed afterwards. The permanent retired list to be reduced to 100, by making one appointment for every two vacancies, the first 25 officers upon the list receiving £1 5s. per day, and the remaining 75 £1 per day, with

the right of assuming the rank of Retired Rear-Admiral, when entitled to it by seniority.

4th. The active list of Captains not permanently to exceed 500. A proportionate reduction to be made in the 14s. 6d. and 12s. 6d. half-pay lists; the first to consist of 70 Captains, and the latter of 100.

5th. Good service pensions to be retained by Captains, until they reach the rank of Rear-Admiral, or Retired Rear-Admiral.

6th. The promotions from the Captains' list to the Admirals' list in future to be continuous, reserving always the undoubted right of the Crown to select officers for promotion in the higher as well as the lower ranks, whenever the public interest requires such an exercise of the prerogative.

7th. The Admirals' list not permanently to exceed 150 in number, and to be thus distributed:—

30 Admirals, or 10 of each squadron;

45 Vice-Admirals, or 15 of each squadron;

And 75 Rear-Admirals, or 25 of each squadron.

8th. This plan to come into operation on the 1st of October of the present year, and all letters relating to it to be treated as strictly confidential.

By command of their Lordships,

He shall produce Certificates of diligence, sobriety, and good conduct from his Captains, also from the Owners, for the time he served as Master, and from the Owners and Master for the time he served as Mate; and shall pass such Examination as the Admiralty may from time to time direct; but no Candidate shall be examined before he shall have attained the age of twenty-one years, nor after the age of forty.

Time served as Master, shall, in future, be considered as time served as Lieutenant, to qualify an Officer to receive a Commission as Commander, under Her Majesty's Regulations, Art. 2, Sec. 4, Chap. 3, in the event of any particularly

distinguished conduct which in the opinion of the Lords Commissioners of the Admiralty it may be proper to reward by such advancement.

Such Masters as shall not have served afloat as Masters in the Royal Navy six complete years, and are not already in the receipt of higher half pay, shall not be entitled to any increase of pay beyond Five shillings a day, except in cases where it shall appear to the Lords Commissioners of the Admiralty, that inability to serve the prescribed term of six years shall have been caused by wounds or ill health, arising from the service.

A Master's Assistant (when such rating shall be allowed by the Admiralty) previously to receiving an appointment as such to any of Her Majesty's ships, will be required to have a thorough knowledge of Practical Observations of the Sun, Moon, and Stars, for ascertaining the Latitude; to work double Altitudes; the Longitude by Chronometer; and to keep a Ship's reckoning by the common Rules, usually denominated a day's work.

EXAMINATION OF MASTERS.

ADMIRALTY, DECEMBER 17, 1840.

The Lords Commissioners of the Admiralty having had under their consideration the present Regulations for the examination of Masters and Second Masters of Her Majesty's Fleet, as defined by Art. 21, chap. 2, page 22, and Art. 25, chap. 2, page 25, of the printed instructions, have been pleased to direct that on and after the 1st of January next, the following Regulations shall be adopted, viz.:—

All Officers passing for the rank of Second Masters (or Officers from the Merchant Service who are candidates for the rank of Master, under the Queen's Regulations, Art. 6, chap. 3, page 24), shall be examined in seamanship, either at home or abroad, by one Captain or Commander, and three Masters; and after having received a certificate of having passed such examination, they shall undergo their examination in navigation, at the Royal Naval College (instead of the Trinity House), under the same Regulations, and at the same period as Midshipmen passing for Lieutenants; but the examination for pilotage is to be conducted at the Trinity House, under the rules and regulations at present in force, but subsequent to the above-mentioned examinations. Having completed the above examinations, they will be considered eligible for the rank of Master in the Royal Navy, provided they shall have served the time required by the Queen's Regulations.

The seniority of Second Masters (or of candidates for the rank of Masters) is in future to reckon from the date of their passing in seamanship for that rank, provided they shall subsequently pass in Navigation at the Royal Naval College on the first or second examination-day following, either of which days they are at liberty to select; or, in the event of an Officer having previously passed *abroad* in seamanship, he is at liberty, after his arrival in England, to select either the first or second examination-day at the Royal Naval College; or if belonging to a ship under orders to be paid off, on the

first or second examination-day after having been so paid off, when, if he shall succeed in passing, he will be allowed seniority from the date of his having passed abroad. But no Second Master (or candidate for the rank of Master) will be allowed such seniority who shall fail in passing the Royal Navy College at the first trial, or who shall not pass at the Trinity House within a month after his having passed in Navigation.

Officers appearing before the Trinity Board for the purpose of passing in pilotage, must be qualified to take charge as Pilot of any of Her Majesty's frigates for the coast and ports for which Masters have hitherto been examined; and when they shall have served three years, at least, in frigates or sloops, they may be further examined as to their qualifications to take charge of Line-of-battle ships; but in this examination it will be required that they pass for the largest description of first-rates. In the event of an Officer serving abroad as Acting Master of a Line-of-battle ship, the time so served may reckon as part of the aforesaid three years.

The class of ship of which Officers are capable of taking charge as Pilots will be stated in the certificate granted to them by the Trinity House.

All Officers desirous of being examined in pilotage at Trinity House, either for the rank of Second Master, or as to their qualifications to serve as Masters of frigates, or of Line-of-battle ships, should present themselves at the Admiralty, bringing with them a certificate of their birth, and also their original certificates for the entire period they have been employed in Her Majesty's service, or in merchant ships, in each of which certificates the word *sobriety* must be included. Similar certificates must be produced by Officers presenting themselves to pass in navigation at the Royal Naval College.

MATES.

To qualify an Officer to become a Mate, he must have served the time and passed the Examination required to qualify him for a Lieutenantcy; but whatever rank beyond that of Midshipman he may obtain abroad, previous to passing such Examination at the Naval College as may from time to time be required, will depend for confirmation on his passing the said Examination within such period after his return to England as shall be directed from time to time by the Admiralty.

No Mate shall be allowed Half-Pay without having been previously surveyed and reported unfit by the Director-General, or the Officers of one of the Naval Hospitals at home. The Medical Officers are therefore to report particularly in each case the probable period at which the Invalid may be again fit for employment; and at the expiration of such period the Mate is to report himself to their Lordships, in order that, if he should state himself to be still unable to serve, proper measures may be taken to ascertain his continued unfitness; after which, should he be declared fit for employment and still withhold his services, his Half-Pay is to be resipited.

Mates who may apply for the retiring pension of two shillings and sixpence a day after twenty years' actual service, will not be re-admitted after having accepted such Pension. The names of all Mates who remain out of the Service for more than one year, without applying for an Appointment, will be removed from the official Register of Mates and Midshipmen, and be considered as having relinquished the Naval Service; unless the omission proceeded from unavoidable causes.

All Midshipmen who shall have passed such Examination respecting their Qualifications for the appointment of Lieutenant as the Lords Commissioners of the Admiralty may from time to time direct (if abroad, for Seamanaship and Navigation, and if at home also at the Royal Naval College), shall be considered eligible to have Commissions as Mates in whatever Ship they may be serving; such Commission will be given by the Lords Commissioners of the Admiralty, upon the recommendation of the Commanding Officer of the Ship in which the person may be serving, transmitted by the Commander-in-Chief or Senior Officer on the Station.

Commanders-in-Chief on Foreign Stations may give Acting Commissions as Mates to such Midshipmen as may pass abroad for Seamanaship and Navigation, which Commissions will be confirmed from their original dates if approved by their Lordships, provided they pass their examination at the Royal Naval College in two months after their arrival in England; but no person appointed to act as Mate or as Lieutenant is to be sent home from a Foreign Station for the purpose of passing such examination.

To qualify a gentleman for an appointment as Midshipman, he must have served in Her Majesty's Navy two complete years as a Cadet, or three complete years in any other capacity; and shall pass such Examination as may from time to time be ordered by the Admiralty, and shall be full fourteen years of age.

A Naval Cadet, before his admission into the Navy, shall undergo such Examination as the Admiralty may from time to time direct.

Naval Cadets must not be under twelve years. They must be in good health, fit for Service, and able to write English from dictation, and must be acquainted with the four first Rules of Arithmetic, Redaction, and the Rule of Three.

(Mates on the half-pay of Half-a-crown a-day are in *italics*).

NAVAL INSTRUCTORS.

REGULATIONS ESTABLISHED BY ORDER IN COUNCIL OF THE 22nd DEC. 1836.
10th AUGUST, 1840, AND 11th MARCH, 1842.

Naval Instructors and Schoolmasters are hereafter to be designated "Naval Instructors," and Chaplains on being appointed to act as Naval Instructors are to be designated "Chaplains and Naval Instructors."—No person will be considered eligible for an appointment as Naval Instructor who is under 20 years of age or more than 35.—Every Candidate will be required to produce a certificate of his age, and testimonials of good character; and both laymen and clergymen when appointed to act as Naval Instructors must pass an examination as to their qualifications to instruct the young Officers in the following branches:—1st. Common Arithmetic, including Vulgar and Decimal Fractions.—2nd. The first six, and the eleventh books of Euclid.—3rd. Algebra, progressing to the highest order of equations, and its application to the solution of Geometrical Problems.—4th. Plane and Spherical Trigonometry, theoretical and practical.—5th. Nautical Astronomy, particularly the principles on which the various rules for finding the latitude and longitude are founded.—6th. Mechanics.—7th. Hydrostatics.—8th. A competent knowledge of the Classics.

The final examination of Candidates for Naval Instructorships will comprise:—1st. The usual College passing examination in Navigation.—2nd. The application of the theory of Projectiles to Gunnery.—3rd. Observations with the Sextant, &c. The use of the Azimuth Compass and Chronometer, &c. Perfect proficiency will be expected in observing: 250 numbers will be required to pass a Candidate in the College paper, and 55 is to be the minimum number for observations.

Although the knowledge of French, as well as of other modern languages, and of the principles of drawing, is not considered as indispensable, it is very desirable that Naval Instructors should be able to give instruction in these branches of education; and preference will always be given to such as possess these attainments.

Naval Instructors will be allowed, in addition to their pay, £25 a-year to be charged on the ship's books against, and to be deducted from, the pay of every young gentleman receiving instruction.

Naval Instructors who shall retire from employment without the sanction of the Admiralty, or who shall refuse or avoid service, if found capable of serving, shall not be allowed to receive half pay; and will be removed from the list of Naval Instructors.

Chaplains acting as Naval Instructors will be allowed £25 a year to be deducted from the pay of every young gentleman instructed by them, in addition to their pay as Chaplains and to three-fourths of the amount of the Full Pay of Naval Instructors, according to the length of their service as such.

MEDICAL OFFICERS OF THE NAVY.

To be eligible for a Commission as Medical Inspector or Deputy Medical Inspector of Hospitals and Fleets, a Surgeon must have served four years in Her Majesty's Navy as Surgeon on board a Commissioned Ship.

To qualify an Officer to receive a Commission as Surgeon, he must have been three years employed as an Assistant Surgeon, one year of which, at least, must be on board a Commissioned Ship, and the other two may be served in one of Her Majesty's Naval Hospitals; and he shall pass such Examination as the Admiralty may from time to time direct; but no Surgeon or Assistant Surgeon, who shall retire from his employment without the sanction of the Admiralty, or who shall refuse or avoid service, if found capable of serving, shall be allowed to receive half-pay; and his name in such case will be removed from the list of Officers of the Royal Navy.

An Assistant-Surgeon shall produce proof of his having served the usual and required Apprenticeship, and shall pass such Examination as the Admiralty may from time to time direct; but no Candidate shall be examined before he shall have attained the age of 20 years, nor after the age of 24.

Sir Gilbert Blane, Bart., with the concurrence of the Lords Commissioners of the Admiralty, for the encouragement of Naval Medical Science, and excitement of an emulation that may conduce to the interests of an important branch of the public service, established a Fund in perpetuity, for the purpose of providing the means of conferring a *gold medal*, once in every two years, on such two Medical Officers, whether *Surgeons* or *Assistant-Surgeons acting as Surgeons*, as shall produce the most approved journals of their practice, whilst actually serving in Her Majesty's Ships.

1st. No British Subject shall accept a Foreign Order, or wear its Insignia, without having previously obtained a Warrant under the Royal Sign Manual (directed to the Earl Marshal of England), granting them Her Majesty's permission to accept and wear the same.

2nd. To obtain such permission, the intention of the Foreign Sovereign to decorate a British subject with the Insignia of such Order is to be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the Queen's Minister abroad, or through the accredited Minister of the Foreign Sovereign resident at London. And if the application be in favour of a Naval Officer, the Principal Secretary of State for Foreign Affairs will communicate with the First Lord of the Admiralty to the same effect, previous to Her Majesty's pleasure being taken thereon.

3rd. 4th. When the Warrant is signed by the Queen, it shall be announced in the Gazette in the usual manner, and registered in Her Majesty's College of Arms.

5th. No subject of Her Majesty can be allowed to accept the Insignia of a Foreign Order from any Sovereign of a Foreign State, except they shall be so conferred in consequence of active and distinguished services before the enemy, either at sea or in the field, or unless he shall have been actually employed in the service of such Foreign Sovereign.

6th. Her Majesty's license and permission doth not authorise, and shall not be deemed or construed to authorise, the assumption of any style, appellation, rank, precedence, or privilege appertaining unto a Knight Bachelor of these Realms.

Her Majesty has been pleased further to direct,—

7th. That if the Service for which it is proposed to confer the Order has been performed during War, the Notification required by the 2nd Regulation must be made not later than two years after the exchange of the Ratifications of a Treaty of Peace.

If the Service has been performed in time of Peace, the Notification must be made within two years of the date of such Service.

8th. When a British Subject has received the Royal permission to accept a Foreign Order, he will at any future time be allowed to accept the Declaration of a higher Class of the same Order, to which he may have become eligible by increase of rank in the Foreign Service, or in the Service of his own country; or any other distinctive mark of honour strictly consequent upon the acceptance of the original Order, and common to every person upon whom such Order is conferred

ABERDEEN.

Foreign Office, August 22, 1843.

The Queen has made known her pleasure,—

9th. That the 8th Clause of the Regulations respecting Foreign Orders shall not be taken to apply to Decorations of the Guelphic Order which were bestowed on British Subjects by her predecessors, their Majesties King George IV., and King William IV., on whose heads the Crowns of Great Britain and Hanover were united.

Decorations so bestowed cannot properly be considered as rewards granted by a Foreign Sovereign for services rendered according to the purport of the 5th Clause of the Regulations. They must be rather considered as personal favours bestowed on British Subjects by British Sovereigns, and as having no reference to services rendered to the Foreign Crown of Hanover.

ABERDEEN.

NAVAL MEDALS.

Admiralty, 7th June, 1848.

The Lords Commissioners of the Admiralty having referred to a Committee of Flag Officers the consideration of the naval actions for which medals should be granted, in accordance with the spirit of the Queen's most gracious intentions, as signified in the *Gazette* of the 4th June, 1847; and Her Majesty having been pleased to approve of several of the suggestions submitted by the said Committee, the following notice is issued for the information and guidance of those who may have claims to this honourable distinction:—

1st. The rule, directed by Her Majesty to be observed in extending this mark of Her royal favour, is so comprehensive, as to bring within its scope all Officers, seamen, and marines (and soldiers who served as marines) who were present in any action which at the time received the special approbation of the Lords Commissioners of the Admiralty.

2nd. From the commencement of the war in 1793, it was the practice of the Board of Admiralty to notice battles of conspicuous merit by the promotion of the First Lieutenant of the ship or ships, or the promotion of the Commander, if the action was fought by a small vessel; and, conformably with this practice, it is Her Majesty's pleasure, that persons of every rank, who were present in such actions, during the wars commencing in 1793, and ending in 1815, and now living, shall receive a medal commemorative of their meritorious services; and they are required forthwith to state their claims for each action in which they may have been engaged, according to the form (A) herunto annexed, and transmit the same to the Secretary of the Committee of Flag Officers, Admiralty, London.

3rd. Her Majesty has also been pleased to take into Her gracious consideration the many instances of gallantry displayed by Officers, seamen, and marines in boat actions during the same period, and to direct that such services, if distinguished by the promotion of the Officer conducting the enterprise, shall entitle those who were present, and now living, to a medal; provided the answers, to be given in the form (B), shall enable the Committee to ascertain that the claim is well founded. But the Officers, seamen, and marines of the ships, from which the boats were detached, are not to participate in a distinction which only properly belongs to those personally engaged.

4th. It is also ordered, that service in the frigates and smaller vessels, which were actually present in any of the great fleet actions mentioned in the *Gazette* of the 4th June, 1847, for which the Captains of the ships of the line received medals, shall entitle those now surviving of the crews of such vessels to a medal.

And all surviving Officers, seamen, and marines, belonging to ships actually co-operating and present during the siege and capture of Martinique in 1809, Guadaloupe in 1810, Java in 1811, St. Sebastian in 1813, for which the Army had medals, will be entitled to a similar distinction, if their return, according to form (A), shall enable the Committee to trace the presence and co-operation of the ships to which the applicants belonged.

And 5th. Her Majesty, having taken into Her most gracious consideration the circumstance that medals have been granted by Her Majesty for services rendered by the Navy, not only in the wars commencing in 1793, and ending in 1815, but also for services rendered in the late war in China, whilst the intermediate general actions, viz.:

The attack upon Algiers in 1816,

The battle of Navarino in 1827, and

The operations on the coast of Syria in 1840, are unmarked by any such distinction, has been pleased to direct, that the surviving Officers, seamen, and marines, engaged in those actions, shall also receive a similar mark of their Sovereign's gracious recollection of their services, and of Her desire to record the same; and all such Officers, seamen, and marines are, therefore, hereby called upon to transmit their claims to such distinction according to the annexed form (A), and addressed to the Secretary of the Committee of Flag Officers, Admiralty, London.

The following Flag Officers have been directed to re-assemble, as a Committee for the investigation and adjudication of all claims sent in according to the printed forms, viz.:—

Admiral Sir T. Byam Martin, G.C.B.

Admiral Sir W. Hall Gage, G.C.H.

Admiral the Hon. Sir Thos. Bladen Capel, K.C.B.

Rear-Admiral Sir James A. Gordon, K.C.B.

By command of the Lords Commissioners
of the Admiralty,
H. G. WARD.

ROYAL NAVAL COLLEGE.

SCIENTIFIC EDUCATION OF OFFICERS.

Admiralty, 20th December, 1838.

Her Majesty having been graciously pleased to sanction, by Order in Council of July 8th, 1838, the establishment of further means of scientific education for a certain number of Officers of Her Majesty's Naval Service, under such regulations as the Lords Commissioners of the Admiralty may frame from time to time.

Their Lordships have directed that for this object—Thirty additional Mates, who have passed both the Examination in Seamanship and in Navigation, shall be borne on the books of the *Excellent*.

They will receive Sea-pay, and be in all respects under Naval discipline; but they will receive the usual allowance instead of being victualled, and be lodged in the Royal Naval College. Any further expense will be defrayed by themselves.

They will be selected from such as have passed the Ordinary Examination on board the *Excellent*, and a preference will be given to those who shall have passed the best Examination.

They will receive Instruction at the Royal Naval College for the space of one year, and then be discharged.

An Examination will take place at the end of every six months.

The Mate who passes the best Examination, provided he produces satisfactory Certificates of character and professional ability from the Captains with whom he has served, and during the period of his Instruction, will receive a Lieutenant's Commission; provided always he attains a certain fixed degree of proficiency.

A limited number (Ten) of Commissioned Officers of any rank may avail themselves of the instruction thus afforded, for the space of one year. No expense will be incurred on their account; and they will be expected to pass the ordinary examination of the *Excellent* before they are admitted to the instruction at the Royal Naval College.

By Command of their Lordships, C. WOOD.

EXAMINATION OF OFFICERS ON SUBJECTS CONNECTED WITH THE STEAM ENGINE.

Admiralty, 8th of December, 1849.

My Lords Commissioners of the Admiralty having had under their consideration the examination required of Officers, on subjects connected with the Steam Engine, with a view to ascertain their competency to be registered as "Steam Officers," are pleased to order that no Officer shall, henceforward, be so registered, until he has passed an examination at the Royal Naval College at Portsmouth, on the subjects herein detailed; and any Officer, whether he has acquired his knowledge in one of Her Majesty's Dockyards, or at the factories of private individuals, or has studied at the Royal Naval College, or not, is at liberty to present himself for examination, on the days fixed for the purpose, on giving timely notice to the Captain Superintendent of the College of his intention so to present himself.

The Examinations are to take place once in every three months, at the time fixed for the present Quarterly Examinations; and they will be conducted by the Professor of the College, in the presence of the Admiral Superintendent of the Dockyard and the Captain Superintendent of the College.

The subjects on which the Officers will be examined are to be, until further notice, as follows, viz. :—

1. The Elements of Geometry, Mechanics, and Dynamics.

2. Laws of Heat.

3. The application of these branches of science to the steam engine.

4. The name, and use of every part of the engines, boilers, &c.

5. Construction and principle of the engines and boilers; expansion of steam, economy of fuel, resulting from the application of the principle, and, under certain circumstances, from the employment of reduced power.

6. The nature, application, and uses of the indicator.

The Chief Engineer of the Dockyard is to furnish the Professor with questions, relating to the heads Nos. 4, 5 and 6—marked with the number which should be given for each question if answered fully and correctly; and he is to examine the written answers, and mark upon each of them the number which should, in his opinion, be given by the Professor.

The Professor is to prepare questions under the first three heads, and in like manner assign to each question the number which should be given to it, if answered fully and correctly.

The whole of these questions are to be printed, and placed in the hands of each Officer, on the day of examination.

An abstract is ultimately to be made by the Professor of the result of the examinations, shewing in one column the greatest number which could be gained under each head of the examination—and in another column, the aggregate of the number under the separate heads awarded to each Officer; and this abstract is to be transmitted to the Secretary of the Admiralty, with a copy of the printed questions, for their Lordships' information.

By Command of their Lordships, JOHN PARKER.

HER MAJESTY'S ORDER IN COUNCIL, DATED JULY 30, 1849, FOR THE DISTRIBUTION OF PRIZE MONEY.

(To take effect on and after January 1st, 1850.)

To flag officer or officers one sixteenth part of the whole net proceeds arising from prizes captured from the enemy, and from all other captures, seizures, &c., as aforesaid, made by any of the ships or vessels under his or their command, and of the rewards conferred for the same. When there is but one flag officer, he shall have the entire one sixteenth; when two flag officers shall be sharing together, the chief shall have two thirds, and the other flag officer the remaining one third of the one sixteenth part; and when there shall be more than two flag officers, the chief shall receive one half of the said one sixteenth, and the remaining half shall be equally divided among the junior flag officers. Commodores of the first class and captains of the fleet to share as flag officers.

Provided always, That no flag officer, unless actually on board any of Our ships or vessels of war, and at the actual taking, sinking, burning, or otherwise destroying any ship or ships of war or privateers belonging to the enemy, shall share in the distribution of any head money or bounty money granted as a reward for the taking, sinking, burning, or otherwise destroying any such ship or vessel of the enemy.

And no flag officer, unless actually present at the capture or destruction of any pirate ship, vessel, or boat, shall be entitled to share in any distribution of the proceeds or bounty in respect of the crews of such piratical vessels.

And no flag officer shall share in any remuneration or reward conferred or awarded to any of Our ships or vessels as salvage, unless he shall have been actually on board the ship or vessel to which the award shall be made, or have personally aided and assisted in the transaction at the time the service was rendered.

No flag officer commanding in any port in the United Kingdom shall share in the proceeds of any prizes captured from the enemy, nor in other captures, seizures, rewards, or any distributive proceeds as aforesaid, made by any ships or vessels which shall sail from or leave such port by order of the Lord High Admiral, or of Our Commissioners for executing the Office of Lord High Admiral.

When ships or vessels under the command of several flag officers belonging to separate stations shall be joint captors, &c., each flag officer shall receive a proportion of the one sixteenth, according to the number of officers and men present under the command of each such flag officer; and when ships or vessels under orders from the Lord High Admiral, or from Our Commissioners for executing the office of Lord High Admiral, are joint captors, &c., with other ships or vessels under a flag or flags, the like regulation as to the apportionment of the flag share to the flag officer or officers is to be observed.

And with reference to these regulations it is to be noted, that a captain, commander, or other commanding officer of a ship or vessel shall be deemed

to be under the command of a flag when he shall actually have received some order from, or be acting in the execution of some order issued by a flag officer, whether he be or be not within the limits of the station of such flag officer; and in the event of his being directed to join a flag officer on any station, he shall be deemed to be under the command of such flag officer from the time when he arrives within the limits of the station, which circumstance is always to be carefully noted in the log book; and it shall be considered that he continues under the flag officer of such station until he shall have received some order directly from, or be acting in the execution of, some order issued by some other flag officer, duly authorized, or by the Lord High Admiral, or Our Commissioners for executing the office of Lord High Admiral.

The captain, command-r, lieutenant commanding, or master commanding, or any other officer commanding any ship, sloop, or vessel of war, singly making a capture or seizure, or otherwise entitled to the distributive benefit arising from any proceeds, reward, grant, bounty, salvage, or award as aforesaid, that is to say, the officer actually in command at the time, shall have one eighth of the remainder, or if there is no flag, one eighth of the entire net proceeds; and if more than one commanding officer of the same rank of command shall be entitled to share as joint captors, &c., the one eighth shall be equally divided between them; but when captains, commanders, lieutenants commanding, and masters commanding, respectively, Our ships, sloops, and vessels of war shall share together, in whatever variety of combination, the one eighth shall be so divided into parts for a graduated apportionment as to provide for each captain receiving six parts, each commander of a sloop three parts, and each lieutenant commanding or master commanding a vessel of war two parts, which We hereby direct shall be the proportion in which they shall respectively share; commodores of the second class, and field officers of marines or of land forces serving as marines, doing duty as field officers, above the rank of major, to share as captains; and field officers of marines or of land forces serving as marines, and doing duty in the rank of major, to share as commanders of sloops.
